LinkedIn: www.linkedin.com/atx-tyler-smith | GitHub: www.github.com/sakiskid | Portfolio:

MERN Stack Web Developer with several years of self-driven C# background designing physics-based experiences. Captivated by code that requires outside-the-box critical thinking to solve. Strong-suit lies in algorithmic functions and innovative technology. Collaborative team-member with an objective to teach and lead, while remaining malleable to feedback.

Technical Skills

Primary: JavaScript, Node.js, Git, GitHub, HTML5, CSS3, C#, Unity Engine

Secondary: Chart.js, jQuery, APIs, AJAX, Gitbash

Projects

Big Picture | Github: <https://github.com/Sakiskid/Big-Picture>

- Summary: Big Picture analyzes and visualizes job listing keywords on a graph.
- Contribution: Built API interaction and Chart.js sorting algorithms. Helped manage workload and objectives between team members.
- Tools Used: AJAX, jQuery, JavaScript, Chart.js

Backflip Master |
